Mr Barack Obama  
President: United States of America  
The white House  
1600 Pennsylvania Avenue NW  
Washington DC 20500

Dear Mr Barack Obama,

It was a great pleasure witnessing the inauguration of the 44<sup>th</sup> President of USA. 'Hearty Congratulations'. We are impressed with your inspiring speech and the way you addressed various issues of national and international importance for urgent attention. Your concern for terrorism is just and every nation should respond to your call.

Human terrorism causes limited damage when compared to Eco-terrorism that devastates continents and races. We need to address this issue on priority basis with due diligence. Knowing the concern of Democrats to the issues of Ecology and Climate Change we are confident that you would bring in some breakthrough to join the rest of the World in the battle against eco-terrorism. Your concern to harness the renewable energy resources is very much apt in this direction.

As a token of our support to your call for recouping the US Economy; and as a token-contribution to the impending ratification of Kyoto Protocol by your Government, we commit to transfer to the resultant carbon credit account of your country 9999 VERs worth of over US\$ 250,000 (at prevalent international price).

### FaL-G:CDM Project

We have an ongoing CDM project signed with the World Bank in which we are going to earn surplus credits over and above what we committed. Thus the VERs to the carbon credit account of USA would be transferred as soon as we accomplish our committed quantity of VERs to the World Bank.

The formal resolution of our Board of Directors to this effect would be handed over to your Ambassador in India very soon in order to record this commitment.

Our patented FaL-G technology ([www.fal-g.com](http://www.fal-g.com)) to manufacture fly ash bricks with zero-thermal energy consumption, which is poised to replace eco-hostile clay brick in billions of number, is the treasure chest to earn millions of tons of carbon credits that encouraged us to make this offer.

We wish all the best and God's blessings to you and your colleagues for good governance with utmost human values and fruitful accomplishments.

With warm personal wishes and regards

Dr N Bhanumathidas  
Mg. Director

N Kalidas  
Executive Director
